

IN THE CLAIMS:

Amended claims follow. A marked-up version of the prior pending claims with all changes clearly indicated is provided in attached Appendix 1.

SUB C3/11

A computer program embodied on a computer readable medium for generating a prioritized network site directory, comprising:

- (a) a code segment that generates at least one link to a site on a network;
- (b) a code segment that adds the site to a site directory having a set of categories comprising at least one category, each category including a plurality of links;
- (c) a code segment that categorizes the site into one of the categories of the site directory;
- (d) a code segment that ranks the categorized site in the category;
- (e) a code segment that displays the links in the category according to rank, the links including the at least one generated link;
- (f) a code segment that displays an identity of the creator of the at least one generated link to a second user upon display of the links to the second user; and
- (g) a code segment that allows the second user to send an information transmittal to the creator of the at least one link.

SUB C6/

B2 H 16.

A computer program as recited in claim ¹⁷11, wherein the site is ranked in the category according to a type of ranking based on at least one of: the number of generated links to the site, the frequency that the site is accessed by selection of the links, and polling.

15 11.

A computer program as recited in claim ¹⁴16, further comprising a code segment that allows a user to specify the type of ranking applied to the category, wherein the sites in the category are displayed according to the user-selected type of ranking.
